

INVENTO S120 R134a automatic AC station

FULL Automatic Air Conditioning Service Device INVENTO S120 R134a

The INVENTO S120 is a modern device designed for quick and hassle-free servicing of air conditioning systems in passenger cars and light commercial vehicles.

Description

Automatic Air Conditioning Service Device INVENTO S120

The INVENTO S120 is a modern device designed for quick and hassle-free servicing of air conditioning systems in passenger cars and light commercial vehicles. With its intuitive interface, including 7" touch screen and an extensive vehicle database, air conditioning servicing becomes remarkably easy and comfortable. Its compact design enables easy transport and on-site service delivery.

The device allows for full automation of the servicing process, from gas recovery to system recharging. Thermal printer outputs provide precise reporting of completed tasks, and the optional database updates ensure long-term functionality.

Key Features:

1. **Supported Gas:** R134a
2. **Display:** 7" LCD
3. **Automatic Functions:** Gas recovery, leak test, automatic oil/UV injection, system recharging
4. **Reporting:** Thermal printer
5. **Mobility:** Compact design for easy transport
6. **Database:** Covers passenger and commercial vehicles
7. **Database Updates:** Optional (additional cost)
8. **Vehicle Database:** A comprehensive database supporting various types of vehicles: passenger cars, light commercial, and heavy-duty vehicles.
9. **Automatic Servicing Process:** Enables hands-free operation from start to finish.
10. **Manual Function Selection:** Allows individual tasks such as gas recovery, leak tests, or vacuuming.
11. **Thermal Printer for Reports:** Every operation is documented with a printout.
12. **Easy Transport:** Mobile construction facilitates fieldwork.
13. **7" Touch screen**
14. **Menu language:** English, Hungarian, Polish, Russian

Technical Specifications:

- **Supported Gas:** R134a
- **Display:** 7" LCD
- **Vacuum Pump Capacity:** 120 L/min
- **Cylinder Capacity:** 10 kg
- **Service Hose Length:** 2.5m
- **Oil Bottle Capacity:** 350 ml
- **Device Weight:** 85 kg

By combining modern technologies and intuitive operation, the INVENTO S120 meets the expectations of both professional service centers and mobile air conditioning service providers.
