

# INVENTO ML 600 - MOTORCYCLE LIFT

Invento ML 600 is a motorcycle lift designed to lift single-track vehicles **weighing up to 600 kg** to a height of **0.9 meters**.

## Description

---

**Invento ML 600** is a motorcycle lift designed to lift single-track vehicles **weighing up to 600 kg** to a **height of 0.9 meters**. The lift is equipped with an **adjustable front wheel holder** that allows you to **block the motorcycle** and remove the rear wheel.

### Key information about the jack:

- installation on the floor
- mechanical lock for stability
- adjustable front wheel holder
- sliding floor under the rear wheel
- controlled by a remote control

The Invento ML 600 is equipped with the necessary safety features required by the CE documentation. This guarantees long and safe work in the workshop.

The lift is designed for installation in covered, closed rooms without any obstacles. Working temperature in the range from -10 ° C to 40 ° C.

### Mounting requirements:

The jack must be placed on a sufficiently strong concrete surface. The road surface must be suitable to support the maximum pressure, also under unfavorable working conditions. The surface must also be perfectly level.
