

INVENTO TCS 656 - OTR, truck tyre changer 56"

INVENTO TCS 656 tyre changer is an economic machine used to service wheels of lorries, agricultural and construction vehicles. The machine has a manually raised arm and a rotating disc. The ergonomic and portable control panel ensures convenient work from either side of the machine. Dual speed nut speeds up the operation.

Description

INVENTO TC 856N tyre changer is an economic machine used to service wheels of lorries, agricultural and construction vehicles. The machine has a manually raised arm and a rotating disc. The ergonomic and portable control panel ensures convenient work from either side of the machine. Dual speed nut speeds up the operation.

The machine is designed for standard truck and bus wheels. When working with **wide tires mounted on rims with a high offset (high ET)**, mounting comfort may be limited due to the geometry of the working arm.

General information

- full work plate design,
- arm with wheel clamping jaws permanently attached to the machine,
- Mounting arm with raised and rotated manually disc and centrepont,
- three attachment points for the mounting arm on the sliding carriage,
- additional ramp for transporting the wheel on a sliding carriage.

Standard equipment

- tyre lever for lorries – 1 pc,
- tyre lever for passenger cars 500 mm with plastic cover – 1 pc,
- tyre lever for passenger cars 600 mm with plastic cover – 1 pc,
- clamp for lorries – 2 pcs,
- 56" extension inserts – 4pcs,
- plastic inserts for alloy wheels – 4 pcs,
- brush.

Technical data

5906288304616

Max wheel width	1 065 mm
Max wheel diameter	2 300 mm
Clamping range	14" - 56"
Device weight	750 kg
Motor	1,5 / 2,4 kW
Max wheel weight	1500 kg
Power supply	400 V / 50 Hz

Technical note:

The declared wheel diameter and width ranges do not take the **rim offset (ET)** into account, which in certain wheel configurations may limit the effective reach of the working arm.

Warranty: 12 months
