

INVENTO TC 856 - OTR, truck tyre changer 56", automatic arm

Invento TC 856 Tire Changer especially equipped for Truck Tires.

Description

Invento TC 856 is an automated professional machine for handling truck, agricultural and OTR wheels. It supports wheels up to **56 "**and weighs **1500 kg**.

Advantages:

- The demounting tool can rotate automatically. The round plate core spindle on the tool head adopts

the roller bearing design in order to rotate freely even having extreme resistance power at the tire edge when operating the tire.

- The dual speed main shaft motor can improve the working efficiency.
- The whole machine corresponds to EU CE standard.

Technical data

5904533337914

Inner colamping	14" - 56" inch (with extention Claw)
Max. wheel diameter	2200 mm
Tire width	1100 mm
Rotation speed	4.2 / 8.5 rpm
Working air pressure	130 - 150 bar
Bead breaker force	3000 kg
Power supply	380v/3Ph-50 Hz
Power	1,5 kW
Noise	<75 dB
Dimensions (LxWxH)	2160 x 2000 x 1830 mm
Weight	1252 kg

Warranty: 12 months
