

INVENTO SL 140 3,5T - Scissor lift

INVENTO SL 140 is a **surface-mounted lift** designed for **underbody lifting** of vehicles **weighing up to 3.5 tonnes**, to a height of **1.4 m**.

Description

INVENTO SL 140 is a **surface-mounted lift** designed for **underbody lifting** of vehicles **weighing up to 3.5 tonnes**, to a height of **1.4 m**. It is ideal for tyre and mechanical workshops, making it easier to replace brake pads and discs, as well as perform other mechanical work, particularly in workshops with limited ceiling height.

Key features of the lift:

- **1,930 mm lift width makes it easier to work with wide vehicles!**
- **Pneumatic safety locks** securing the lift position with automatic release
- Synchronized platform movement
- Adjustable platform length: **1,750 mm – 1,950 mm**
- Rubber pads and extensions included

The Invento SL 140 lift is equipped with all the necessary safety features required by the CE documentation, ensuring long-lasting and safe operation in the workshop.

The lift is designed for installation in covered, enclosed areas free from obstacles. Operating temperature range: **-10°C to 40°C**.

Technical data

Lifting capacity	3 500 kg
Lifting height	1 380 mm
Minimum height	110 mm
Platform length	1 750 mm - 1 950 mm
Platform width	560 mm
Distance between scissors	810 mm
Overall width	1 930 mm
Lifting time	60 s
Power supply	400V/50 Hz

Warranty: 12 months
