

INVENTO Waste oil drainer 80 L with control tank

INVENTO Oil drainer with 80L control tank!

Description

INVENTO oil drain and extractor with an 80L control tank is an indispensable tool that increases work comfort and efficiency during oil changes. It significantly facilitates the change of engine oil and transmission fluid. This extractor ensures fast and precise removal of oil from the engine and other drivetrain components. The device effectively cleans the oil chamber and hoses, eliminating issues related to gravity drainage that prevent the complete emptying of the system. The high-quality INVENTO oil drain and extractor.

Accuracy and Efficiency

The oil drain and extractor allows for the precise removal of all oil, which is difficult to achieve with traditional methods.

Easy to Use

The device is easy to maneuver thanks to the wheels and handle, and the adjustable bowl height ensures precise positioning under the engine or gearbox.

High Performance

With its high suction speed, the work becomes more efficient, which is important during heavy workloads.

Oil Storage

The extractor tank can also be used as a sealed storage container for drained oil.

Key Features:

- Tank Capacity: 80L allows for long operation without frequent emptying.
- Suction Efficiency: Up to 6.5 l/min guarantees quick emptying.
- Control Tank: 10L capacity facilitates monitoring of the extraction process.
- Oil Temperature Range: 40-60°C ensures safe use in a wide range of working conditions.
- Air Inlet: 1/4" ensures compatibility with various systems.
- Air Pressure: 6-8 bar guarantees high efficiency.
- Vacuum Extraction: 0.7-1 bar ensures thorough draining.

Included in the Set:

1. 4 flexible suction probes
2. 1 metal suction probe

Technical data

5904533336542

- Brand: INVENTO
- Model: INVTO03
- Tank Capacity: 80 L
- Suction Efficiency: Up to approximately 6.5 l/min
- Control Tank Capacity: 10 L
- Oil Temperature Range: 40 - 60°C
- Air Inlet: 1/4"
- Bowl Diameter: 41 cm
- Bowl Capacity: Approx. 16 L
- Air Supply Pressure: 6 - 8 Bar
- Vacuum Pressure: 0.7 - 1 Bar
- Suction Probes Included: 4 flexible suction probes and 1 metal suction probe
- Minimum Height: 140 cm
- Maximum Height: 173 cm
- Weight: 19.5 kg

Warranty: 12 months
