

ALU SLIM ECO - FE 12 x 5g adhesive weight - black

SLIM 60g (12 x 5g) steel adhesive wheel weight, round shape, zinc-coated, black painted, with wide, blue tape. The ideal solution that guarantees precise balancing of passenger car alloy wheels.

Description

SLIM 60g (12 X 5g) steel adhesive wheel weight, round shape, zinc-coated, **painted BLACK with a wide tape**. The ideal solution that guarantees **precise balancing** of passenger car alloy wheels. As a manufacturer of wheel weights, we offer **products of the highest quality**. Each batch of wheel weights is tested in our laboratory under strictly defined standards.

Advantages:

- Wide tape for easier mounting, which eliminates the need to take off the gloves
- Zinc coating for corrosion protection
- No risk of damaging the rim
- Thickness including the tape is only 3,8 mm, which makes the wheel weights practically invisible
- Convenient mounting and precise wheel balancing. A single piece of wheel weight consists of a 60g

strip additionally divided into 12 smaller, 5g wheel weights.

- The wheel weights adapt perfectly to the rims thanks to an elastic tape.
- Strong adhesive tape for permanent mounting of the wheel weight on the rim

Technical data

5904533336917

- Material: steel
- Protective coating: zinc + powder coated
- Type: adhesive weights
- Mounting method - stick on the rim
- Dedicated to: aluminum rim
- Height: 3.8 mm
- Shape: round
- Color: black
- Securing adhesive tape: blue, wide
- Weight of the weight: 5 grams
- Strip weight: 60 grams
- Package weight: 6 kg
- Number of weights on the strip: 12 pcs
- Number of strips in the package: 100 pcs
- Number of packages: 1 package
- Condition: New
- Catalog item: EXTPALU-FE1B
- Manufacturer's code: EXTPALU-FE1B

Warranty: 12 months
